Learning Check

1. Sort and Connect

Part A — Sort the coin, book, diary, and drawing under the right heading:

Tells us about a family's past	Tells us about the village's past

Part B -Think of one thing near your own home that has been there for a long time and is still used today - a tree, a well, a shop, a temple, a school. Write or draw it below.

My village/street has: _____ It is still used today for: _____

2. Oral Question

If you found an old object at your home tomorrow, who would you ask about it first? What would you ask them?

3. Project - Village History Corner

Bring one old object from home. As a class, set up a Village History Corner: place your object with a small label saying what it is and what it tells us about the past. Walk around and look at everyone else's objects, the way Savithri and Madhav shared theirs.

What I Learnt

I will colour the star for what I have learnt.

I can name different things that tell us about the past - objects, books, diaries, pictures.

I can explain how something old can tell us a story.

I can tell the difference between my family's past and my village's past.

I can find something from the past that is still a part of my life today.
